Sample border and blog directions use the *Deep Woods* collection.

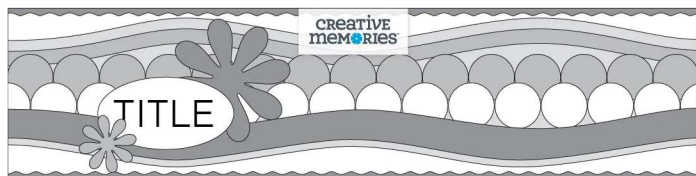

**Step 1:** Cut a 12 x 2" strip of pine trees designer paper for the base.

**Step 2:** Cut a 12 x 1-1/4" piece of birch bark designer paper and adhere 1/4" from the bottom of the base. Adhere a pine trees laser-cut border on top, extending from the base. Place a pine boughs laser-cut border over the seam.

**Step 3:** Using the Photography Chain Border Maker Cartridge, punch a border with woodgrain designer paper and another with damp moss designer paper. Cut apart the woodgrain border, removing the second camera from the left. Adhere the rest of it to the border. Trim out two cameras from the damp moss border and adhere in the open spot, popping the front camera up with Foam Squares.

**Step 4:** Add a title sticker with Foam Squares.

Sample border and blog directions use the *Serene Waters* collection.

**Step 1:** Cut a 12 x 3" strip of bright blue waves tonal paper for the base. Using the 12-inch Trimmer and the Wave Blade, cut a 12 x 2-3/4" strip of glistening ripples designer paper and adhere on the base.

**Step 2:** Using the swell edge of the 12-inch Decorative Trimmer, cut a 12 x 2" (at the widest point) piece of aqua fishes tonal paper. Adhere on the border.

**Step 3:** Using the swell edge of the 12-inch Decorative Trimmer, cut two 12 x 1/2" ribbons with water ripples vellum paper. Adhere on the border using Vellum Tape Runner Refill. Burnish to hide the adhesive.

**Step 4:** Using the Friendly Fish Border Punch, punch a border with cool stripes designer paper, but turn it to the reverse side before punching. Punch a border with soft medium orange stripes designer paper. Trim off the long fish at the bottom. Adhere on top of the cool stripes fish (they should be going in the opposite direction).

**Step 5:** Adhere embellishments and stickers, popping some up with Foam Squares for added dimension.
