

Sample layout and blog directions use the Polar Lights collection.

Step 1: Use a piece of Navy Solid Cardstock as the base.

Step 2: Cut a [second] piece of Navy Solid Cardstock to measure 11-3/4 x 11-3/4" and cut out a 2"-wide frame. Set aside the square piece.

Step 3: Cut four 4 x 12" strips of various designer papers. Cut each strip as shown [photo above.]

Step 4: Adhere the strips to the navy frame, spacing 1/8" each other as shown. Trim the excess. Add to the navy cardstock base.

Step 5: Cut a 7-1/2 x 7-1/2" square from the herringbone designer paper and adhere to the page.

Step 6: Use the Polar Bears Border Punch to punch a border from the navy square piece that you cut in Step 2. Add to the page.

Step 7: Cut one 3-9/16 x 6-1/8" mat and two 3-9/16" x 3" mats from the square navy remnant made in Step 2.

Step 8: Adhere flocked borders, stickers, embellishments and mats, using Foam Squares on some for added dimension.
