Step 3: Using the Fireworks Punch, punch two shapes with lightning bolts paper (allowing space between punches) and two shapes with blue diagonal stripes paper. Align the medium Circle CCS Pattern over the punched out paper shape (negative space). Cut out the circle using the Blue Blade. Repeat with all four shapes. Adhere the circle shapes on the border, alternating hues.

Step 4: Adhere three of the punched out fireworks shapes behind the circles as shown.

Step 5: Adhere stickers using Foam Squares for added dimension.

Magical Moments Border

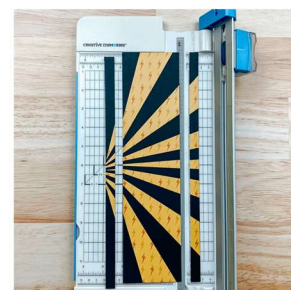

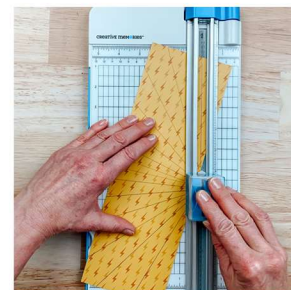

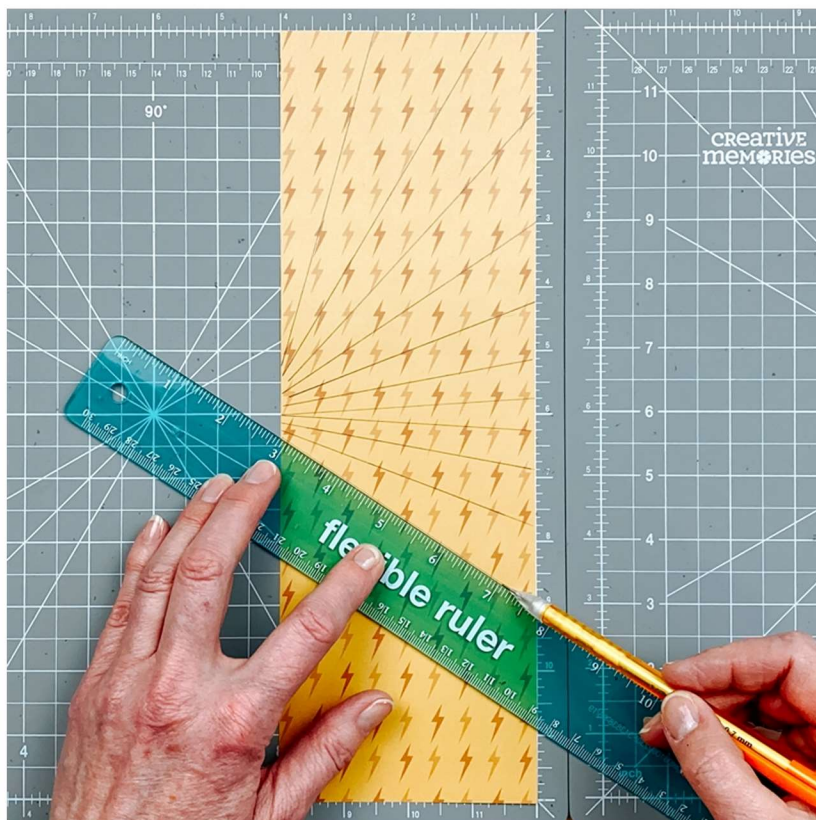

Step 1: Cut a 3-5/8" x 12" strip with maroon stripes paper for the base. Cut a 3-1/4" x 12" strip with White Solid Cardstock and adhere on the base.

Step 2: Cut a 4" x 12" strip with Black Solid Cardstock*. Cut a 4" x 12" strip with lightning bolts paper. Place lightning bolts strip on the 13x13 Custom Cutting System Mat. Using a ruler and pencil, draw a line from the 6" mark on one long side to the 6-1/4" mark on the other side. Continue drawing "rays" from near the middle of one side radiating up and down on the other side, using the photos below as a guide. Using the 12-inch Trimmer, cut apart on the lines, reassembling them on the Black Solid Cardstock strip. Remove every other strip*. Adhere remaining strips. Cut off 1/2" from each side, leaving a 3" x 12" piece. Adhere on the border.

**You may wish to create a second border for the opposite side of a two-page layout since you're only using half of your "rays". Simply cut a second 4" x 12" strip of Black Solid Cardstock. When reassembling your cut rays onto the borders, place every other one onto the second cardstock strip.*

Step 3: Adhere a castle sticker on the middle of the border as shown. Adhere the "Magical moments" sticker using Foam Squares for added dimension.

Step 4: Using the Fireworks Punch, punch three shapes with White Solid Cardstock and two with Crimson Solid Cardstock. Adhere on the border as shown.
