

Christmas Lights

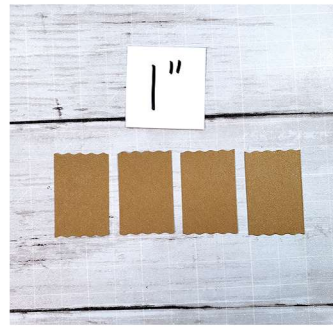

The Diamond CCS Pattern makes perfect light bulbs to include in your holiday layouts. The sample layout uses the Candy Cane Lane (2021) papers and cardstock to coordinate but this layout can easily be done with other holiday papers and matching cardstock.

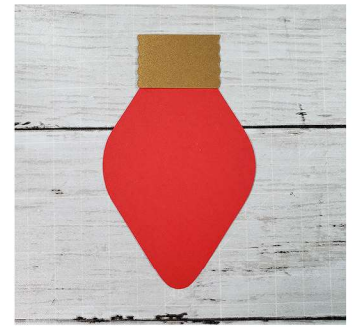

1. Cut 5 diamonds with blue blade on inside track of Diamond CCS Pattern.

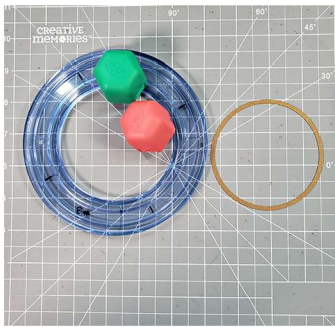

2. Trim a 1-1/2" strip of Bronze Shimmer with the Wave blade.

3. Trim (4) 1" sections of the wave strip with the Straight blade.

4. Adhere the Bronze Shimmer pieces to the top of the diamond pieces to make light bulbs.

5. Trim thin Bronze Shimmer ring with Circle #3 and Green, then Red blades on inside track.

6. Trim a 6" piece of Christmas Lights and Pink/Red stripe papers.

7. Paper weld pieces together to form 12x12 paper. Can make either a single page or a double page layout.

8. Using repo adhesive just on bulb, position bulbs across the bottom of the page.

9. Cut the Bronze Shimmer ring into sections and adhere behind the tops of the bulbs. Then adhere the bulb tops in place.

10. Photo mats are 3-3/4 x 5-1/2. Photo corners are cut from 7/8" squares.
