

SUPPLIES

- Circle Punch (1-3/4")
- Leafy Vine Border Punch
- CCS Circle Patterns
- CCS Cutting Blades
- 13 x 13" Cutting Mat
- Various cardstock & designer papers
- Stickers & embellishments

Sample made with the Sun Soaked collection (2024)

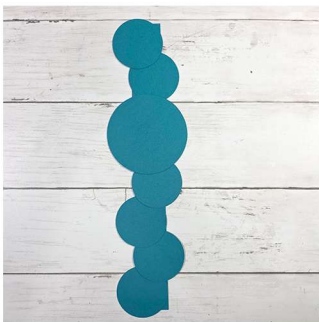

Step 1: Use Circle #3 with the red blade on the inside track to cut one circle from dark sea green cardstock.

Step 2: Use Circle #2 with the green blade on the inside track to cut six circles from dark sea green cardstock.

Step 3: Cut a 1 x 12" strip of dark sea green cardstock.

Step 4: Adhere the cardstock circles on the 1" strip of paper with repositionable ink. It is okay if some of the 1" strip shows as that will be covered with the accent circles later.

Step 5: Use Circle #3 with the blue blade on the inside track to cut one circle from tonal paper OR a photo. Adhere to the larger cardstock circle.

Step 6: Use the Circle Punch to create 6 circles with various designer and tonal papers. Adhere to the smaller cardstock circles. Use the Circle Punch to cut pieces of borders to add to the smaller circles if desired (see demo video). Add stickers or embellishments as desired using foam squares to add dimension.

Step 7: Use Circle #1 with the red and blue blades on the inside track to cut a variety of smaller circles from a second color of cardstock (aqua cardstock used in sample). Tuck these circles into various spots on the border.

Step 8: Use the Leafy Vine Border Punch (substitute as necessary) with Parakeet Shimmer Paper and cut the border apart with scissors to create sections of seaweed. Tuck in to the border as desired.
