

Blog examples used Happy Album Kits #12 & 13 (retired).

## HAPPY ALBUM DIRECTIONS

**Step 1:** Start by using Kit #12 and adhering the blue patterned designer paper (6-3/4 x 10") to both pages using a Tape Runner.

**Step 2:** Tear opposite corners off the 6-3/4 x 10" notebook patterned designer paper and adhere the pieces to the pages for journaling.

**Step 3:** Cut the navy cardstock using the Trimmer and adhere it to the top of the first page. Using stickers, spell out January and use the flowers to make it pretty!

You can get creative and title your page anything you want + use whichever designer papers you like best.

## ADAPTING TO 12 x 12"

**Step 1:** Start with 12 x 12" two base papers.

**Step 2:** Tear the corners from a designer paper OR tear from journal paper to mimic the look of the sample layout. Adhere the pieces to the two base pages. See demo video for suggestions.

**Step 3:** Determine what size of lettering to use for the title. Cut a banner from cardstock or complementary cardstock approximately 1/4 to 1/2" taller than the lettering. Adhere to the layout.

**Step 4:** Arrange photos and other details on the page as desired.
