

**Note:** Sketch shown above is meant to correspond with the Cutting Guide. It does NOT represent specific designer papers.

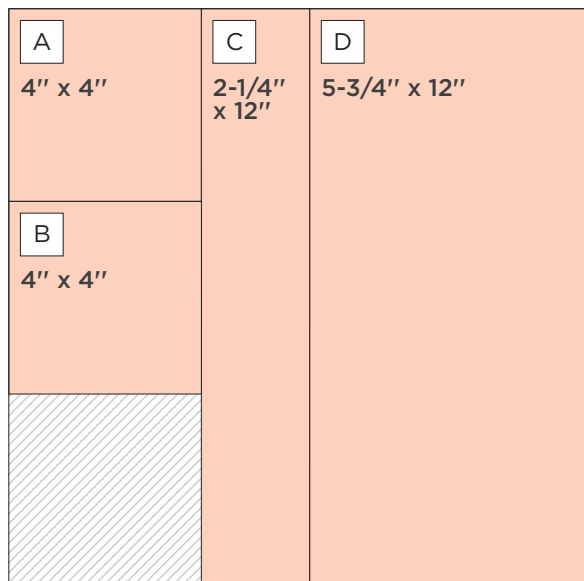

## INSTRUCTIONS

- Use two sheets of the same designer paper for the base pages. The sheet used for the right base page is also Designer Paper #1 from the cutting guide.
- Use the 12-inch Trimmer to follow the Cutting Guide with Designer Papers #1-3. Be sure to pay attention to the direction of the paper patterns before cutting, noting that you will use both sides of Designer Paper #2.
- To create piece M, use the Bubble Scallop Border Punch to punch along one edge of the Blue Cardstock. Then use the 12-inch Trimmer to cut at 1-1/2", measured from the widest part of the punch. Repeat to create piece N. *Note: Don't throw away the punch debris!*
- Use the 12-inch Trimmer to finish cutting the cardstock following the Cutting Guide.
- Use the Tape Runner to adhere piece I along the right side of the left base page, followed by piece K directly next to it as shown.
- Adhere piece E along the straight edge of punched piece M before using the Repositionable Tape Runner to adhere them next to piece K.
- Adhere piece H horizontally 3-1/2" from the top and along the left edge of the left page, followed by piece O on top as shown. These will overlap pieces M, E and K.
- Adhere piece A 1-1/2" from the top and piece B 2" from the bottom of the left page as shown. Adhere photos to the left page as shown.
- To create the right base page, start by positioning piece D on the right side of the 13x13 Custom Cutting System Mat. Then adhere piece L to piece D by overlapping it to create a 12"x12" base, using the Cutting Mat as a guide. Once placed, there should be a 2-1/2" strip of piece D showing along the right side of the page.
- Use the Tape Runner to adhere piece F along the straight edge of punched piece N. Then use the Repositionable Tape Runner to adhere them on top of piece D, along the edge of piece L.
- Adhere piece J next to piece F and piece C along the left edge of piece L as shown.
- Adhere piece R to the middle of piece G. Then adhere photos to pieces P, Q and R as shown. Position and adhere matted photos to the right page as shown.
- Journal on the White Write-On! Stickers as shown or directly onto the paper as desired.
- Optional: Use the Precision Point Adhesive Pen to adhere the punch debris as desired. Apply stickers using Foam Squares to add dimension.

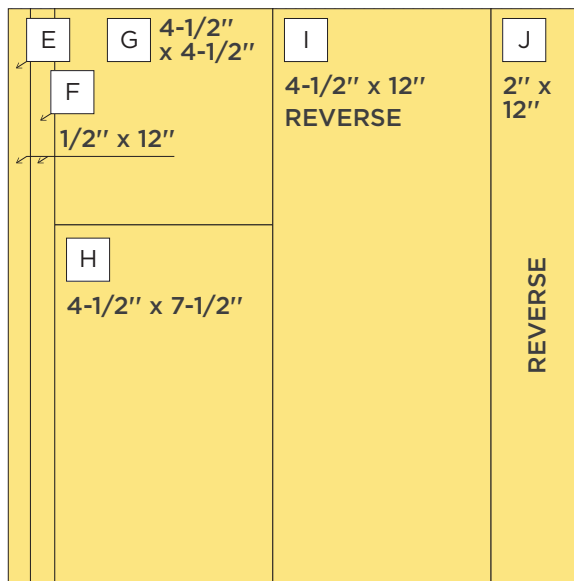

*Tip: To more easily cut 1/2" pieces E & F, rotate the paper so that you're cutting strips off the right edge. This allows you to keep hold of the larger paper piece while trimming.*
