Navy Cardstock
Canary Cardstock
12" Decorative Trimmer
18" Ruler
Handheld Rotary Trimmer

Left Side Paper (12 x 10")

Right Side Paper (12 x 10")

Process Video

DIRECTIONS

1. Watch the video for a demonstration on how to cut the background rays.
2. Adhere rays to the base page or cardstock.
3. Use the wave edge of the 12" Decorative Trimmer to cut two 1-1/2" strips from the coral paper. Adhere to lower edge of the rays. The top of the wave strip should be 2" from the bottom of the page.
4. Add border details to the lower part of the layout. Demo shows the cloud laser cut border from the Summer Nights collection paired with the Rolling Sunshine Chain BMC.
5. Cut two 6 x 8" pieces of paper from Canary cardstock (or other coordinating paper.)
6. From the Coral Paper, remnant, trim (4) 4-1/4 x 6" mats. Pair with 4 x 5-3/4" photos.
7. Adhere the Canary rectangle and mats with photos on the page as desired.
8. Adhere shooting star borders or other border element across the top.

NOTE: If you need to use Peekaboo Pockets to add more photos, adjust the mat size in Step 6 to 4 x 6" and use with 3-3/4 x 5-3/4" photos. Place mat and photo inside of the peekaboo pocket.
