

SUPPLIES

- Gingerbread Fun Collection
- 2 Sheets Hot Fudge Cardstock
- 1 Sheet Carmel Cardstock
- Scrap Bright White Cardstock
- Gingerbread Border Punch
- Circle Punch (1-3/4")
- 12-inch Trimmer with Straight and Wave Blades

DIRECTIONS

STEP 1: With the Wave Blade in the 12-inch Trimmer, cut a piece of Carmel cardstock to 4x12" and then punch along the top/short edge of the piece with the Gingerbread Border Punch (start the piece so that the left edge of the paper lines up with the left black starting mark on the front of the punch.) Use the wave blade to cut the piece to 11-1/4" tall. Use scissors to round out the edges of the roofs as needed. **This piece goes on the left page.**

STEP 2: From the remaining piece of the Carmel Cardstock, trim one short side with the Wave Blade and then punch the long side with the Gingerbread Border Punch, starting the left edge of paper at the left black mark on the front of the punch. After punching, use the Wave Blade in the trimmer to cut the piece down to 11-1/8" wide by 6-1/2" tall. Use scissors to round out the edges of the roofs as needed. **This piece goes on the right page.**

STEP 3: Use the Wave blade on the 12-inch Trimmer to cut a sheet of the brown heart/star paper into two pieces: one that is 7 x 11-1/4 and a second that is 4-1/2 x 11-1/8". **The larger piece goes on the left page, and the smaller piece is rotated and placed on the right page.**

STEP 4: With the Straight Blade, trim a piece of blue tonal paper to 4x12 and then three photo mats to 3-1/2" square each. **The 4x12 piece goes on the left page and the three mats will be adhered to the right page.**

STEP 5: Punch 7 white, 2 red and 3 green circles and place behind the gingerbread house borders as shown.

STEP 6: From the red tonal paper, cut (2) 4 x 5-1/2" mats and (2) 3-1/2 x 4-1/2" mats and adhere the layout as shown.

STEP 7: Place the diagonal stripe variety mat on the right side of the left page as shown and add a 4 x 6 mat cut from Vista shimmer paper. Cut apart the smaller diagonal stripe mat and place on the right page as shown to be a journal box.

STEP 8: Trim the smaller green "Next Level Decoration" mat in half and use as a title. Add additional embellishments as desired.
