

## Simple Peekaboo Corner Fold

### SUPPLIES

- 2 sheets designer paper
- 1 sheet of designer paper or cardstock
- 2 sheets of complimentary cardstock for mats (two different colors)
- 12-Inch Trimmer with straight and scoring blades
- CCS Circle Patterns with CCS Blades
- Additional embellishments/borders as desired

### DIRECTIONS

**STEP 1:** Select a sheet of designer paper that you like both sides of. Use a pencil to make a small mark 4" down from the top left corner and 1" to the left of the top right corner. Use the scoring blade with the 12-Inch Trimmer to make a fold line between the two pencil marks. Fold along the score line.

**STEP 2:** Cut a 12 x 4-1/2" piece of paper or cardstock and adhere behind the folded edge of the paper to recreate the 12 x 12" base paper.

**STEP 3:** Repeat steps 1-2 with a second sheet of designer paper, but this time measure, mark and fold in the lower right corner.

**STEP 4:** Cut mats for each page according to the directions below and adhere to the layout. Add decorative details as desired.

#### LEFT PAGE MATS & PHOTOS

**Dark Sea Green** - 8-3/4 x 6-1/2; use with (2) 4 x 6" photos
