

Note: Sketch shown above is meant to correspond with the Cutting Guide. It does NOT represent specific designer papers.

INSTRUCTIONS

1. Use two matching sheets of designer paper for the base pages.
2. Use the 12-inch Trimmer and Custom Cutting System to follow the Cutting Guide with designer paper and cardstock. Be sure to complete pieces A, B and F-H before cutting pieces C and I.
3. To create the peaks on pieces C and I, center the paper on the 13x13 Cutting Mat between the 1-1/2" and 10-1/2" marks on the top of mat. Position the Border Cutting Tool near the top of the paper so the peak is pointing up and the "R" on the foot of the tool is aligned with the 1/2" mark on the side of the Cutting Mat. Cut along the peaked edge with the Red Blade. Remove the paper, reserving the leftover strips, and rotate it 180°. Place it back on the cutting mat and repeat the above steps.
4. Measure and trim a 4" section from the two leftover strips created while cutting piece C. Make sure to center the peak when trimming to preserve the unique shape.
5. Use the Tape Runner to adhere piece C along the right edge of the left page, with the corner 1" down from the top. Adhere piece M directly beside it, then use the Repositionable Tape Runner to adhere punched border piece A beside piece M.
6. Adhere piece I along the left edge of the right page, with the corner 1" down from the top. Adhere piece N directly beside it, then use the Repositionable Tape Runner to adhere punched border piece B beside piece N.
7. Arrange and adhere pieces D-H, J-L and O-P to the layout as shown.
8. Adhere photos as shown.
9. Optional: Apply stickers using Foam Squares to add dimension and journal as desired.
