

# Modern Log Cabin Quilt Layout

## SUPPLIES

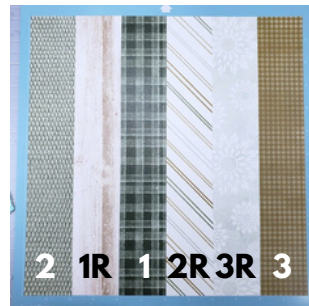

- (6) 2 x 12" strips of designer paper or cardstock
- 1 paper pack cover sheet (12x12)
- 1 sheet cardstock
- 2 large variety mats
- (1-2) 12" border elements
- 18" ruler (optional, but preferred)
- Self-adhesive cutting mat (optional, but preferred)
- Handheld rotary trimmer (optional, but preferred)

**Non-directional papers will work best.**

**STEP 1:** This sample uses 3 pairs of 2 x 12" strips.

Alternately, use 6 different strips of paper to make sure like-patterns don't touch at diagonal seam.

**STEP 2:** Flip one strip of each pair over to show the reverse side and arrange the strips on the adhesive mat keeping the seams tight.

**STEP 3:** Use the 18" ruler and handheld rotary trimmer to cut from the lower left to the upper right. OR - draw a line with a pencil and cut each strip with scissors or trimmer.

**STEP 4:** Rearrange the pieces to create the modern log cabin design. Adhere the pieces to a 12x12" paper pack cover sheet.

**STEP 4:** Trim 1/4" from all four sides.

**STEP 5:** Adhere the trimmed design to a piece of cardstock.

### Finishing the layout

1. Select two coordinating large mats or create your own (4-1/2 x 6-1/2") and pair with 4 x 6" photos.
2. Add 1-2 border elements below the photos.
3. Add embellishments as desired.
